Ye Jin, Hong

Software Developer / Software Engineer / Full Stack Developer

(703) 220-6566 | jennifer.hong.312@gmail.com | Richmond, VA | linkedin.com/in/hongjennifer | github.com/YjHong12

TECHNICAL SKILLS

Skills: *Node, JavaScript, React / Redux, Git, PostgreSQL, CSS, HTML5, Express, Cypress, Material UI, Tailwind*
Computer Administration: *Microsoft Word, Excel, PowerPoint, 100+ wpm*

TECHNICAL PROJECTS

Museum App | **Full Stack Developer** | October 2023 | Website | Github Repo
A comprehensive museum exploration and review web application. Users can discover nearby museums, read and leave reviews with ratings, access detailed museum information, and maintain private journal entries about their visits.
- Created a museum exploration and review web application, leveraging the Google Maps API.
- Developed CRUD operations for journaling and leaving reviews with ratings.
- Implemented secure user authentication and registration for seamless access control.

Tech Stack: React, Redux, JavaScript, PostgreSQL, Google Maps API, CSS, Tailwind, Bcrypt, Cypress

Grocery List | **Full Stack Developer** | September 2023 | Github Repo
Developed a functional web application for grocery list management, offering features inspired by popular e-commerce platforms. Users can list, update, delete, and view items seamlessly.
- Developed CRUD functionalities for seamless management of grocery lists.
- Implemented a secure user authentication and registration system.
- Utilized React, JavaScript, and APIs to build an intuitive and interactive user interface.

Tech Stack: React, Redux, JavaScript, PostgreSQL, CSS, Cypress, Express, Node

Stranger's Things | **Full Stack Developer** | August 2023 | Website | Github Repo
A functional web application inspired by Craig's List and eBay, enabling users to list items for sale, perform updates, deletions, and view all listed items.
- Developed CRUD functionalities, enabling seamless listing, updating, and deletion of items for sale.
- Implemented user authentication and registration system, allowing secure access for sellers and buyers.
- Utilized class APIs and React components to build an intuitive user interface for listing items.

Tech Stack: React, Redux, JavaScript, CSS, RESTful API

EXPERIENCE

Teaching Assistant | **KinderCare Education Centers** | Blacksburg, VA   Feb/2020 - July/2020
- Collaborated with lead teachers to design and implement diverse lesson plans.
- Provided individualized support to **20** students with specific learning needs.
- Managed classroom dynamics with effective discipline strategies, leading to a **14%** reduction in conflicts.
- Offered insights to enhance curriculum effectiveness, resulting in an **12%** increase in enrollment.

Certified Nursing Assistant | **LewisGale Hospital** | Blacksburg, VA   Oct/2019 - Feb/2020
- Provided compassionate and high-quality patient care, enhancing the well-being of over **40** patients daily.
- Collaborated with a multidisciplinary healthcare team to assist in medical procedures, contributing to smooth execution.
- Maintained an average of **40** accurate electronic medical records (EMR) daily, demonstrating meticulous attention to detail and ensuring efficient data management.
